EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark Kupanoff on January 05, 2007.

The application has been amended as follows:

Reinstate claims 3-21 from "(withdrawn)" to --(original)--.

In line 11 of claim 11, after the word "splitter", insert -- and such that at least a portion of light from the light source enters the wave division multiplexer/detector assembly without impinging upon the narrowband reflection fiber grating--.

In line 11 of claim 15, after the word "assembly", insert -- and such that at least a portion of light from the light source enters the wave division multiplexer/detector assembly without impinging upon the narrowband reflection fiber grating--.

In line 11 of claim 20, after the word "assembly", insert -- and such that at least a portion of light from the light source enters the wave division multiplexer/detector assembly without impinging upon the narrowband reflection fiber grating--.

Art Unit: 2874

The following is an examiner's statement of reasons for allowance: After amendment all the pending claims now include the limitation that at least a portion of light from the light source enters the wave division multiplexer/detector assembly without impinging upon the narrowband reflection fiber grating. This feature patentably distinguishes the present invention from the prior art. In addition, applicant's arguments regarding the difference between the presently claimed invention and that of Michael are persuasive.

Claims 1-22 of this application are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hemang Sanghavi whose telephone number is (571) 272-9955. The examiner can normally be reached on Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rodney Bovernick can be reached on (571) 272-2344. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
